

SAE Innovation Challenge

Under the banner of SAE Club every year IIT Patna's motorsport teams take part in Supra SAE India and Enduro Student India.

Here is an opportunity for you to present your innovative idea, which can be implemented in these vehicles. For e.g. this year an android app was developed for our Supra car which in case of any accident sends the coordinates (latitude/longitude) to your friend so that they know where the accident has occurred.

So grab this golden opportunity and win an award.

Rules:

You need to present the idea through a ppt. The presentation must consist of following points:

- 1) Idea and Design
- 2) Cost Analysis
- 3) Expected Failures, if any

Extra points will be there for prototype. The points will be decided later on. The innovation can be Mechanical, Electrical or just an app.

Max. Members in a team – 3 (if presenting a prototype)

2 (without prototype)

Presentation Time: Min. 5min & max. 10min

Judging Criteria:

- 1) How is your idea
- 2) Cost
- 3) Applicability
- 4) Presentation skills
- 5) Prototype
